How to Create Your Handprint Bouquet

What You'll Need:

Your printed bouquet page (use cardstock for best results!)

Washable finger paint in your chosen colors

Paper plate or palette for paint

Paper towels and wet wipes for cleanup

Steps:

1. Print the bouquet page at 100% / Actual Size on cardstock paper
2. Pour a thin layer of washable paint onto a paper plate
3. Press your child's hand into the paint, spreading fingers slightly
4. Carefully press their hand onto each dashed circle on the bouquet
5. Use different colors for each 'flower' for a colorful bouquet!
6. Let dry completely (about 30 minutes)
7. Write your child's name and age on the signature line
8. Frame and gift to Mom, Grandma, or any special lady!

Printing Tips:

Print on white cardstock (65-110 lb) for the best look and durability

Select 'Actual Size' or '100%' in your printer settings (not 'Fit to Page')

Use a color printer for the beautiful warm tones

You can also take the file to Staples, FedEx, or Walgreens for printing

Paint Suggestions:

Crayola Washable Finger Paints work great and clean up easily

Try pink, purple, yellow, orange, and red for a vibrant bouquet

For babies: apply paint with a foam brush, then gently press their hand

Multiple children? Use a different color for each child's handprints!
